But these photos were only for his enjoyment at first, but then about some times ago he suggested making a Yahoo Group about me. Even though my husband says I have got a pair of legs to die for, especially when they are spread wide open and wrapped in sexy stockings. Now I am and I hope this site is very

successful and gets many, many visitors in the world wide web ..... I'd like to tell you a little bit about why I became a Hirsute... When I was visiting Germany a few years ago, I was exposed to the Hirsute armpit style. I found it not only fascinating and sexy but also very attractive. Living in Berlin, I decided to throw away my razor and become completely au naturel. I would like to share my unshaven look with you, in hopes that you too will become a lover of the Hirsute style. I am only wearing stockings, halfbras and an outfit without arms to show off my totally unshaven sexy armpits everywhere in public! And very often I don't need any panties ...! I have done all these for many years, as I was once told by a doctor that to be unshaven, wearing stockings and halfbras is much healthier for my body (much to my husbands delight). Please, send in your own very private pics too to show off your female body looks like me. All the guys in the whole world wants to see you ....! Me too? I enjoy receiving your e-mail, and your suggestions for pictures, as it does get difficult to think of new variations sometimes.
